

# Bespoke Seafood Solutions

SBL Bespoke Seafood Solutions is a comprehensive software aimed at optimizing the routine processes in a seafood business and improving the grade and quality of the final products while also improving the efficiency of labor and financial resources invested for the business.

Designed with the latest technologies, our Bespoke Seafood Solutions promises businesses to realize cost control initiatives by identifying and fixing those areas causing a drainage of their finances while also boosting productivity in each of their departments. Managers can now take better informed decisions and plans after analyzing the activities and cost data for each department in the seafood company both in terms of work allocation and sales targeting.

## ⇒ Salient Features

- ▶ Module wise implementation & Easily scalable solution
- ▶ Economical, High Food Safety standards and Compliance reliant
- ▶ Simple functioning with single click, Lot traceability - end to end, advanced notifications
- ▶ Different and varied currency and language
- ▶ Batch and weight process manufacturing are core strengths
- ▶ Modules for crew settlement and fishing with specialized portions
- ▶ Easy deployment on the cloud server
- ▶ Customized touch and tablet experience - data can be accessed or processed at any location or device
- ▶ KPI's can be viewed through personalized home pages
- ▶ Actions can be prioritized through live data and distinctive color coding alerts
- ▶ Sophisticated color coding and live data alerts help you prioritize actions

## ⇒ Modules

SBL Bespoke Seafood Solutions harmonizes Cold store, Purchase Management, Receiving Area Management, Sale & Export Management, Production Management, QC, HR Payroll, Vehicle Management and lets you know the detailed figures or the monetary value right from the point of catch, unpacking, washing and grading, skinning, evisceration and fileting, processing and packing to the point of sales. Every activity of the seafood company operations including rejection of fish, packing and so can be tracked via our software. The transparency that SBL Bespoke Seafood Solutions provides through detailed cost records which can be generated at each and every stage enables optimal consumption of materials, fewer waste quantities, better client servicing and lesser miscalculations.

## ⇒ Benefits

- ▶ The SBL Bespoke Seafood Solutions consolidates multiple applications and department activities into one and provides a real-time view of what's going on inside your organization that accounts for faster business decision taking, speedy production as well as time and labor savings.
- ▶ It avoids risk of losing expensive and sensitive information as the software encompasses multiple layers of security and permissions.
- ▶ Well-informed production planning and decrease in lead time and delivery period of components from one department to another.
- ▶ Improved sales-targeting
- ▶ Customizable software
- ▶ 360 degree costing and seamless end-to-end traceability
- ▶ Real-time fishing data
- ▶ Environmental tracking and eco-harvesting
- ▶ Vessel and vendor management
- ▶ Quota management
- ▶ Recording of the catch for the day and sales
- ▶ Details of settlement made for the crew
- ▶ Broker management and details of commission payable
- ▶ Integrated production and payment tools
- ▶ E-commerce solutions
- ▶ Lab, hatchery or farm level
