

Mobile Device Management

Overview

SBL MDM (Mobile Device Management) is the security solution developed by SBL. MDM solution gives corporates ability to centrally monitor and control mobile devices that are registered in a corporate network. MDM is a cost effective and efficient way for corporates to ensure that employees stay focused without breaching the corporate policies and corporate interests are kept intact.

A smart tracking tool is very essential for the employees who are in the field, especially people like Sales. Company owned mobile devices can be monitored using the software and even erase data in case of any misuse of data. All these management and controlling of data can be done wirelessly by administrator on the enterprise corporate devices.

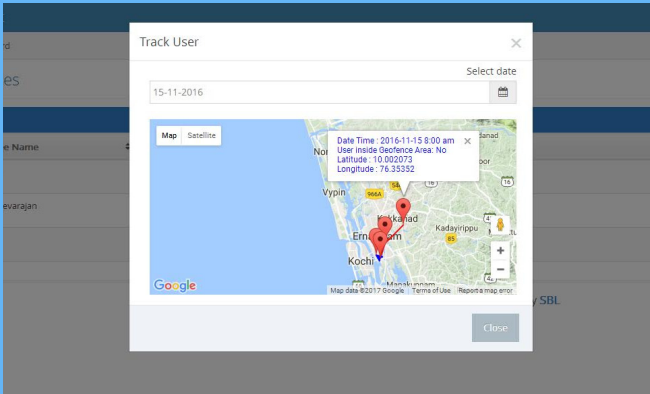

Benefits

- ❑ Easy to use
- ❑ Increased productivity
- ❑ Data security

Features

- ❑ GPS Tracking
